May 2013

Dear resident

## **Elsinore Way junction with the A316 Lower Richmond Road**

Transport for London (TfL) would like to know your views on a proposal to change the kerb line at the junction between the A316 Lower Richmond Road and Elsinore Way.

We have been made aware that vehicles using the turning facility at this junction are sometimes forced to over-run the kerb, entering the cycle lane that is adjacent to the road here. There have also been collisions with the kerb build-out immediately west of the junction. The London Borough of Richmond upon Thames and TfL have worked on a potential solution to this issue and are now seeking the views of the local community.

We propose to cut the kerb back between the bus stop and the junction with Elsinore Way, to allow more room for turning vehicles, as shown on the attached plan.

We will replace the cycle lane that runs along the south side of the A316 with a shared cycle/pedestrian space in the area of this junction. Signs will warn cyclists as they approach the junction and remind them of the care needed in the shared area. We plan a full review of cycling routes along the A316 corridor later in 2013, and will be inviting views on this in due course.

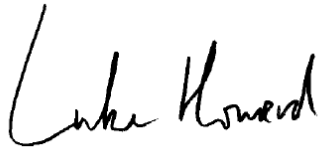

Depending on the views expressed during this consultation exercise, we will carry out the work during summer 2013.

You can let us know your views on the proposals by visiting our consultation website at [consultations.tfl.gov.uk/streets/elsinoreway](http://consultations.tfl.gov.uk/streets/elsinoreway), emailing us at [stengagement@tfl.gov.uk](mailto:stengagement@tfl.gov.uk) (with 'Elsinore Way' in the Subject line) or writing to me at the above address. The consultation will run from 31 May to 21 June 2013.
